

# HEY TELL US WHAT YOU WOULD DO WITH £500 SAVINGS BOSS!

## Make It Cheaper shares the good stuff with Darley Abbey Community Association!

By teaming up with Make It Cheaper, the Darley Abbey Community Association has managed to make some significant savings on their energy bills. We spoke to community leader Ian Smith to learn more about how this thriving community organisation used its savings to fund an impressive renovation project.

### From savings to a new place (almost!)

By teaming up with Make It Cheaper, the Darley Abbey Community Association has managed to make some significant savings on their energy bills. We spoke to community leader Ian Smith to learn more about how this thriving community organisation used its savings to fund an impressive renovation project.

### Ian Smith, The Darley Abbey Community Association, Darley, March 2016

"Darley Abbey Village Hall is a community hall in Darley Abbey. It's owned by the council, but is managed by a voluntary committee.

"Through Make It Cheaper, we saved at least £500 on our gas last year, plus more on electric. This year, we saved another £500!"

"These savings have helped pay for a complete redecoration of our hall, and general facilities. It's so much brighter and nicer for our local yoga and wine appreciation groups. We also hire it out for events like weddings. We also have an amateur theatre company, called Marlowe Players, who put on three plays a year. So the money we've saved allows us to redecorate the stage area and changing rooms."
